

<u>Recipient</u>	<u>Recipient Address</u>	<u>Project Description</u>	<u>Amount</u>
Appalachian Artisan Center of Kentucky	PO Box 833, Hindman, KY 41822	<b>Appalachian Artisan Center Expansion</b> -- funding for this project would support the design and construction of an Appalachian Artisan Center in Hindman, developing at least 50 new businesses and creating or saving at least 100 jobs over a ten-year period. The Center serves as a business incubator for artisans, providing technical assistance in business development. The expansion of the facility is an important step towards the economic revitalization of downtown Hindman and diversification of the local economy.	\$1,280,000
Appalachian Regional Healthcare (ARH) Hospitals	2285 Executive Drive Suite 400 Lexington, KY 40505	<b>Appalachian Regional Healthcare (ARH) Hospitals:</b> Provide funding for an electronic medication administration and clinical pharmacy system that will allow nurses to have better access to patient information at the patients bedside via computer workstations located on medication carts. This comprehensive system also provides for the necessary integration between nursing and pharmacy to facilitate real-time communication to provide optimum safety for the patient. Electronically capturing and managing all patient care-related medication administration will improve clinical documentation, optimize the selection of medication, and reduce medical errors. Appalachian Regional Healthcare has seven hospitals in eastern Kentucky and two in West Virginia.	\$1,000,000
Appalachian Service Project	4523 Bristol Highway, Johnson City, TN 37601	<b>Expansion of Home Repairs in Southern and Eastern Kentucky-</b> In rural counties of Kentucky, significant poverty often prevents families from maintaining access to basic services like water and sewer and performing regular home maintenance. Since 1969, ASP has provided critical repairs to 13,000 homes in Central Appalachia and life-changing volunteer experiences to over 240,000 people. In 2008, the economic impact of ASP's activities across Kentucky was \$3.15 million, and ASP will combine this FY10 funding with private contributions to provide emergency home repairs for disadvantaged families in rural Kentucky.	\$460,000
Aspen Compressor, LLC	825 Chappell's Dairy Road Somerset, KY 42503	<b>Production of Miniature Compressors for Electronics for Personal Cooling:</b> The funding will be used to improve the capacity to produce miniature compressors for electronics and personal cooling systems. The miniature cooling compressors provide cooling solutions for military personnel, first responder, and law enforcement personnel that will save lives and increase mission effectiveness.	\$7,500,000

Blue Grass Army Depot	431 Battle Field Memorial Road Richmond, KY 40475	<p><b>Blue Grass Army Depot Superficial Water Oxidation- Conventional Demil:</b> The funding will be used to provide the Army with a state-of-the-art environmentally friendly means of processing the problematic energetic wastes generated at the base. The Blue Grass Army Depot has been a munitions storage and demilitarization depot facility for over sixty years. When munitions are demilitarized, waste water containing energetic materials is produced. This funding will provide a viable munitions destruction solution for the base and the community.</p> <p><b>Persistent Autonomous Maritime Surveillance (PAMS):</b> The funding will be used for the development of experimental low cost, expendable autonomous underwater vehicles (AUVs). AUVs provide support for a variety of missions including intelligence, surveillance, reconnaissance, deployment of mine counter measures, and assistance of anti-submarine warfare.</p>	\$5,500,000
Boneal Incorporated	6962 U.S. Highway 460 Means, KY 40346	<p><b>CenterNET2:</b> CenterNET2 is a statewide videoconferencing service which offers telecommunications capabilities to 151 sites across Kentucky. Network features include content on demand, bridging and Internet conversion capabilities. Funding in FY10 will assist the Center for Rural Development in expanding CenterNET2 service to more sites across Kentucky and enhancing outdated equipment. An additional bridge also would be deployed to provide the safety net needed for a network with such a high level of dependency. This is vitally important for the Law Enforcement Technology program, which provides classroom and online training for first responders.</p>	\$6,000,000
Center for Rural Development	2252 South Highway 27, Somerset, KY 42501	<p><b>Forward in the Fifth:</b> Provide funding for the continuation of Forward in the Fifth, a civic literacy program in southern and eastern Kentucky. Begun in 1986, the organization serves 44 Appalachian counties by placing a high priority on literacy education. In addition, Forward in the Fifth has developed and implemented a variety of programs to improve school attendance, enhance science and math instruction, reduce dropout rates, train parents in computer-based education platforms, and increase the number of residents attending college. The program works with local schools, teachers, parents, and the community.</p>	\$1,000,000
City of Corbin, City Utilities Commission	2252 South Highway 27 Somerset, KY 42501	<p><b>Bradford Park Sanitary Sewer Extension-</b> this project will provide sanitary sewer collection service for an existing and proposed housing development with 57 housing sites. The project consists of approximately 6,350 feet of gravity sewer pipe, 34 sewer manholes and 1,700 feet of service laterals.</p>	\$500,000
			\$260,250

City of Livingston	615 Main Street, PO Box 654, Livingston, KY 40445	<p><b>Wastewater Treatment Plant &amp; Sewerline Rehabilitation-</b> the project will serve approximately 178 households (114 existing customers and 64 new/underserved customers). The sewerline extension portion of the project will eliminate 16 straight pipes and 42 failing septic systems. The current wastewater treatment plant in Livingston has exceeded its initial design life, and has exceeded permit limits on its discharge into the Rockcastle River. The project will mitigate current Inflow/Infiltration issues that cause raw sewage overflows in wet weather.</p>	\$1,237,500
City of Prestonsburg	200 North Lake Drive Prestonsburg, KY 41653	<p><b>Mountain Arts Center:</b> Provide funding for arts educational programming at the Mountain Arts Center. This funding will enable the complex to expand its curriculum and offer more opportunities to the people of eastern Kentucky. The Mountain Arts Center is a non-profit cultural arts complex based in Prestonsburg, Kentucky. It hosts a wide variety of education classes for people of all ages interested in music, art, and the theatre.</p>	\$250,000
City of Williamsburg	PO Box 119, Williamsburg, KY 40769	<p><b>Water &amp; Wastewater Infrastructure for Riverwoods &amp; Cumberland Falls State Park-</b> Eastern Kentucky PRIDE is a non-profit organization serving 38 counties in southern and eastern Kentucky, which aims to clean the region's waterways, clean up illegal dumps, and promote environmental education and awareness. Funding is needed for water and wastewater infrastructure at Riverwoods, an environmental education center currently under development, that would be LEED-certified and provide the region with a residential environmental learning center, as well as an outreach for at-risk youth who have been adversely affected by the region's prescription drug abuse problems.</p>	\$1,650,000
Consortium for Plant Biotechnology Research	100 Sylvan Drive, Suite 210, St. Simons Island, GA 31522	<p><b>The Consortium for Plant Biotechnology Research (CPBR)</b> is a non-profit organization whose membership includes 43 leading U.S. research universities and 39 agribusiness companies and trade associations. 92.6% of funding is utilized for researching plant biotechnologies that will improve the competitiveness of U.S. agriculture by developing technologies to lessen the country's dependence on foreign energy supplies. Federal funds are matched 130% on average. The University of Kentucky is a CPBR member.</p>	\$4,000,000

<p>Consortium for Plant Biotechnology Research</p>	<p>100 Sylvan Drive, Suite 210, St. Simons Island, GA 31522</p>	<p>The Consortium for Plant Biotechnology Research (CPBR) is a non-profit organization whose membership includes 43 leading U.S. research universities and 39 agribusiness companies and trade associations. 92.6% of funding is utilized for researching plant biotechnologies that will improve the competitiveness of U.S. agriculture by developing technologies to lessen the country's dependence on foreign energy supplies. Federal funds are matched 130% on average. The University of Kentucky is a CPBR member.</p>	<p>\$6,000,000</p>
<p>Cumberland Gap National Park</p>	<p>PO Box 1848, Middlesboro, KY 40965</p>	<p><b>Fern Lake Land Acquisition</b>- Authorized through P.L. 108-07, the National Park Service was granted authority to acquire the historic and pristine Fern Lake and surrounding 4500 acre watershed incorporating this area into Cumberland Gap National Historic Park. Fern Lake will eventually serve as a clean and reliable water source for the city of Middlesboro, Kentucky as well as enhance recreational opportunities at Cumberland Gap. Phase 1 of the project has been completed, and Phase 2 acquisition, funded in the FY08 and FY09 Omnibus Appropriations Acts, is underway. This funding would complete all Fern Lake land acquisition.</p>	<p>\$2,400,000</p>
<p>Cumberland Gap National Park</p>	<p>PO Box 1848, Middlesboro, KY 40965</p>	<p><b>Operations &amp; Maintenance, Cumberland Gap National Historic Park</b>- additional funding is needed at new park facilities to meet operational requirements laid out in the park's asset management plan and business plan, including mechanical, custodial and grounds keeping activities. This funding will enable the park to meet core responsibilities for maintenance and visitor services. In addition, the park will require additional funds to manage approximately 2,171 acres annexed by the park within the Fern Lake Watershed. These responsibilities include maintaining boundaries, road and trail maintenance, and resource management.</p>	<p>\$817,000</p>
<p>Daniel Boone Land Acquisition</p>	<p>1700 Bypass Road, Winchester, KY 40391</p>	<p><b>Land Acquisition, Daniel Boone National Forest</b>- fully funding this request would enable the DBNF to acquire an additional 2,586 acres from willing sellers in the Red River Gorge area, as well as the Rockcastle River and Horse Lick Creek watersheds. Acquisition of these available tracts of land will minimize fragmentation of the forest, and help ensure consistent management of the forest. Between 2.5 and 5 million people visit the forest every year.</p>	<p>\$2,745,000</p>

Daniel Boone National Forest	1700 Bypass Road, Winchester, KY 40391	<p><b>Marijuana Eradication, Daniel Boone National Forest-</b> this request is for additional funding for law enforcement activities within the Daniel Boone National Forest. Drug trafficking and production in eastern Kentucky continues to plague the development of our communities, discourage investment and harm our young people. Last year, law enforcement officials eradicated 1,365 plots in the Daniel Boone National Forest, totaling 104,684 marijuana plants. This funding is vital to continuing these important efforts.</p>	\$1,500,000
Eastern Kentucky PRIDE	2252 South Highway 27, Somerset, KY 42501	<p><b>Eastern Kentucky PRIDE General Operations:</b> PRIDE is the first initiative specifically created to solve severe environmental degradation problems in Southern and Eastern Kentucky by promoting conservation, community stewardship and science education. Through federal, state and regional resources, PRIDE develops innovative approaches to solving our pollution problems. Continued funding in FY10 will support an environmental aquatic initiative throughout the Kentucky, Big Sandy and Cumberland watersheds.</p>	\$7,500,000
Eastern Kentucky PRIDE	2252 South Highway 27, Somerset, KY 42501	<p><b>Eastern Kentucky PRIDE- design and construction of innovative water protection infrastructure:</b> PRIDE is the first initiative specifically created to solve severe environmental degradation problems in Southern and Eastern Kentucky by promoting conservation, community stewardship and science education. To date, PRIDE's efforts have provided 28,088 homes with access to sanitary wastewater treatment, and resulted in the elimination of 2,452 illegal dumps, 608,671 bags of trash and 909,838 discarded tires.</p>	\$2,500,000
Eastern Kentucky PRIDE	2252 South Highway 27, Somerset, KY 42501	<p><b>Reconnaissance investigation, Upper Cumberland River Basin- Eastern Kentucky PRIDE</b> would like to conduct a reconnaissance investigation to evaluate the occurrence of selected human-health pharmaceutical compounds and degradation products in the Upper Cumberland River Basin. PRIDE is a non-profit organization specifically created to solve severe environmental degradation problems in Southern and Eastern Kentucky. Through federal, state and regional resources, PRIDE develops innovative approaches to solving our pollution problems and its initiatives continually improve the water quality of Kentucky's five largest waterways located within its 38-county service territory.</p>	\$500,000

Eastern Kentucky PRIDE	2252 South Highway 27 Somerset, KY 42501	<p><b>Eastern Kentucky PRIDE Environmental Education:</b> Provide funding for environmental education and awareness to students through the Eastern Kentucky PRIDE program. PRIDE is the first initiative specifically created to solve severe environmental degradation problems in the region. PRIDE, a non-profit organization, unites citizens with the resources of federal, state and local governments in order to improve water quality in the region, clean up illegal trash dumps and other solid waste, and promote environmental awareness and education to break the cycle of pollution. This funding supports initiatives in local elementary, middle, and high schools to engage students in environmental stewardship.</p>	\$250,000
Ensign Bickford Aerospace and Dynamics	PO Box 219 State Route 175 Graham, KY 42344	<p><b>Enabling Optimization of Reactive Armor:</b> The funding will be used to provide for the forwarding and optimization of current Reactive Armor (RA) solutions to reduce weight, defeat emerging threats, develop multi-threat capability enhancements, and increase overall safety.</p>	\$3,000,000
Hazard-Perry County Airport Board – Wendell H. Ford Regional Airport	P.O. Box 420, Hazard, KY 41701	<p><b>Instrument Landing System-</b> This project would fund an Instrument Landing System (ILS) at Wendell H. Ford Regional Airport in Hazard, Ky. for precision azimuth and elevation guidance signals to aircraft. For the 12-month period ending September 21, 2006, the airport had 10,200 aircraft operations, an average of 27 per day: 85% general aviation, 14% air taxi and 2% military. This project will improve runway safety for military and civilian operations and enhance travel in the region.</p>	\$1,500,000
Hospice of the Bluegrass-Mountain Community	3115 North Main Street Suite 101 Hazard, KY 41701	<p><b>Hospice of the Bluegrass- Mountain Community:</b> Provide funding to construct a 12 bed, 20,000 square foot free standing hospice inpatient facility. The rural community has an aging population, many with chronic conditions such as Chronic Obstructive Pulmonary Disease (COPD), heart disease, cancer, and black lung. Currently, many patients requiring inpatient care are admitted to facilities far from home.</p>	\$1,000,000
Kentucky Blood Center	3121 Beaumont Centre Circle, Lexington, KY 40513	<p><b>Kentucky Blood Center (KBC), Somerset Donor Center-</b> Funding for this project would support the construction of a new blood donor center along US-27 in Somerset, Ky., which would allow for storage of a large volume of blood components. The Kentucky Blood Center currently leases a smaller space, which has proved insufficient to accommodate the growth in blood donation and staffing in the area. The Somerset Center will allow KBC to develop a regional approach in meeting blood donation needs, increasing preparedness for a disaster or blood emergency.</p>	\$2,000,000

Kentucky Communities Economic Opportunity Council (KCEOC)	5448 US 25 East, Gray, KY 40734	<p><b>Health &amp; Wellness Facility</b> - these funds would support the construction of a health and wellness facility in an area of Kentucky with a long history of high employment and high poverty. No such facility currently exists in the region, and this project would help combat serious health issues faced by residents as a result of the pervasive problems of obesity and diabetes -- thereby greatly increasing the quality of life for local residents.</p>	\$500,000
Kentucky Department of Military Affairs	Boone National Guard Center 100 Minuteman Parkway Frankfort, KY 40601	<p><b>Kentucky National Guard Counter Drug Program:</b> The funding would be used to support law enforcement in the eradication of marijuana across the Commonwealth of Kentucky through the use of military equipment and personnel.</p>	\$3,600,000
Kentucky Department of Military Affairs	Boone National Guard Center 100 Minuteman Parkway Frankfort, KY 40602	<p><b>Civil Support Communications Systems for KY-ARNG UH-60 Aircraft:</b> The funding will be used for the one-time procurement of advanced civil support radio systems to be installed on Kentucky Army National Guard UH-60 Black Hawk helicopters. This will increase the National Guard's effectiveness when performing the full spectrum of state emergency missions by allowing direct communication with civilian first responders.</p>	\$2,000,000
Kentucky Department of Military Affairs	Boone National Guard Center 100 Minuteman Parkway Frankfort, KY 40603	<p><b>Kentucky Army National Guard Emergency Response Generator Stockpile:</b> The funding will increase the capabilities of the Kentucky National Guard to effectively carry out its Defense Support to Civil Authorities mission by providing adequate power generation to its 54 National Guard armories and rapid, transportable emergency power generation to critical life-saving and emergency response facilities throughout the Commonwealth in emergency situations. The need for this emergency back-up power capability was clearly demonstrated during the past two emergency situations in the Commonwealth (January 2009 Ice Storm and Hurricane Ike in 2008).</p>	\$8,250,000
Kentucky Department of Military Affairs- Harold L. Disney Training Facility	Boone National Guard Center 100 Minuteman Parkway Frankfort, KY 40601	<p><b>General Admin Building:</b> Construct an administrative building at the Harold L. Disney Training Center. Presently there are no administrative facilities at this location and training site personnel conduct operations out of the existing Engagement Skills Training Building. The current building facility is inadequate to meet mission requirements.</p>	\$2,416,000
Kentucky Department of Military Affairs- London Joint Readiness Center	Boone National Guard Center 100 Minuteman Parkway Frankfort, KY 40601	<p><b>Phase IV Aviation Operation Facility:</b> Construct two additional (11,400 sf) unheated aircraft storage buildings for the London Joint Readiness Center. The project is required to fully house the Joint Support Operations equipment and personnel in one facility located in the vicinity of operations. At the conclusion of this project, the unit will be able to respond quicker and in a much more efficient manner which will allow a greater return on investment funds spent on the operation.</p>	\$1,805,000

Kentucky Division of Conservation	375 Versailles Road Frankfort, KY 40601	<p><b>Technical Assistance Grants to Kentucky Soil Conservation Districts, Kentucky Division of Conservation:</b> Provide funding for conservation technical assistance grants to the Kentucky Soil Conservation Districts. This locally-led program promotes Kentucky's natural resource priorities and assists in the implementation of various Farm Bill conservation programs on small family farms.</p>	\$2,500,000
Kentucky Division of Conservation	375 Versailles Road Frankfort, KY 40601	<p><b>Kentucky Soil Erosion Control:</b> Provide funding for conservation technical assistance to the Kentucky Soil Erosion Control Cost Share Program. The Kentucky Cost Share Program is implemented in coordination with the Environmental Quality Incentives Program to address Kentucky's natural resource concerns. The funds will be used for engineering, designing, installing, and certification of systems/facilities in order to meet national conservation standards.</p>	\$3,500,000
Kentucky Emergency Management	1121 Louisville Road 1B, Frankfort, KY 40601	<p><b>City of Coal Run Village Drainage Improvement.</b> The project includes installation of adequate storm drainage to eliminate the build up of surface water during high water and excessive rain events. This is a persistent and high prone flood area in Pike County.</p>	\$921,140
Kentucky Emergency Management	1121 Louisville Road 1B, Frankfort, KY 40601	<p><b>City of Paintsville Drainage Improvement Study</b> - This funding would be used to conduct a study to collect, disperse, and transport storm water and develop a new drainage system for the city.</p>	\$1,000,000
Kentucky Emergency Management	1121 Louisville Road 1B, Frankfort, KY 40601	<p><b>Rowan County Fiscal Court Creek Bank Stabilization</b> - The project will provide bank stabilization along Christy Creek Road in Rowan County. The hazard mitigation project may include acquisition/demolition of landslide prone properties.</p>	\$500,000
Kentucky Emergency Management	1121 Louisville Road 1B, Frankfort, KY 40601	<p><b>Martin County Fiscal Court Stream Improvement</b> - The project includes widening in key locations and re-enforcement of eroding banks for the first two miles of Blacklog Fork (above its confluence with Coldwater Fork).</p>	\$628,500
Kentucky Emergency Management	1121 Louisville Road 1B, Frankfort, KY 40601	<p><b>Frenchburg Stream Overflow and Landslide Hazard Reduction</b> - This funding keep creek banks from eroding into private residences and prohibit landslides. Menifee County and all of eastern Kentucky face persistent flash flood and creek bank erosion challenges which endanger life and property.</p>	\$120,000
Kentucky Emergency Management	1121 Louisville Road 1B, Frankfort, KY 40601	<p><b>City of Salyersville Drainage Improvement</b> - This funding would initiate a study for local stream improvements to reduce erosion and flooding and provide for mitigation and disaster planning along the Licking River and tributaries.</p>	\$40,000
Kentucky Emergency Management	1121 Louisville Road 1B, Frankfort, KY 40601	<p><b>Elkhorn City Storm Drainage Improvement</b> - Project includes improvements to storm drainage with additional and larger drains, piping, and curb construction to mitigate for potential flood damages and losses.</p>	\$1,205,600

Kentucky Emergency Management	1121 Louisville Road 1B, Frankfort, KY 40601	<p><b>City of Brodhead Storm Drainage Improvement</b> - mitigate for flooding along Church Street in Brodhead through drainage system improvements, including curbing, storm drains, piping, channeling, and flood basins.</p>	\$600,000
Kentucky Emergency Management	100 Minuteman Parkway, Frankfort, KY 40601	<p><b>Kentucky Emergency Management - Emergency Operations Center</b> - Funding will be used to assist with building an addition to the existing Kentucky Emergency Operations Center (7,126 sq ft.) which was built in 1975. Staff are currently scattered across Frankfort in three different locations as far as 8 miles apart. During disasters, FEMA and other federal partner agencies have no space available in the existing structure.</p>	\$1,000,000
Kentucky Highlands Investment Corporation	362 Old Whitley Road London, KY 40743	<p><b>Kentucky Highlands Entrepreneur Loan Fund:</b> Provide funding to finance new and emerging enterprises being developed through Kentucky Highlands Investment Corporation's on-site business incubator known as the Center for Entrepreneurial Growth. The Center for Entrepreneurial Growth serves as a national model on how to find and nurture entrepreneurs, support and develop their concepts, finance their venture and take their product to market. The Kentucky Highlands Investment Corporation is a non-profit entity that focuses on creating an entrepreneurial climate that encourages and supports technology and science based start-up, early stage and expanding businesses.</p>	\$750,000
Kentucky Transportation Cabinet	200 Mero Street, Frankfort, KY 40622	<p><b>I-66 Northern Bypass</b> - Upon its completion, I-66 will provide a vital connection between Southern and Eastern Kentucky and the nationwide road system. This is crucial to providing my constituents with better access to health care, opening up communities to tourism, and supporting additional supply lines for new businesses. The highway will also improve safety for people traveling in and around the area. Highway spending yields a 32% annual return on investments measured over decades, which far exceeds most other public or private investments.</p>	\$2,000,000
Kentucky Transportation Cabinet	200 Mero Street, Frankfort, KY 40622	<p><b>Widening US-25 in Laurel County, Kentucky</b> - this funding would support ongoing State efforts to expand US-25 to 4 lanes near Corbin in Laurel County, Kentucky. This would greatly decrease congestion and increase safety in the area. Highway spending yields a 32% annual return on investments measured over decades, which far exceeds most other public or private investments.</p>	\$1,200,000

Kentucky Transportation Cabinet	200 Mero Street, Frankfort, KY 40622	<p><b>Widening I-75 in Rockcastle County, Ky.-</b> Interstate 75 is a crucial part of the Interstate Highway System. Widening of I-75 will continue important ongoing work to address traffic congestion and safety issues along this important national corridor. Several stretches of I-75 have been widened to six lanes in recent years. Long term state highway plans are to widen all of I-75 in Kentucky to at least six lanes. Highway spending yields a 32% annual return on investments measured over decades, which far exceeds most other public or private investments.</p>	\$2,000,000
Kentucky Transportation Cabinet	200 Mero Street, Frankfort, KY 40622	<p><b>Widening US-27 through Lincoln/Garrard/Pulaski Counties --</b> US-27 is the main North/South thoroughfare connecting southern Kentucky and Lake Cumberland to the Lexington area. Expanding this highway is a component of the Kentucky State Highway plan, and additional funding in FY10 will expedite the project to decrease congestion and increase safety along this corridor. Highway spending yields a 32% annual return on investments measured over decades, which far exceeds most other public or private investments.</p>	\$2,000,000
Kentucky Transportation Cabinet	200 Mero Street, Frankfort, KY 40622	<p><b>Language, Reallocation of Funds from Hal Rogers Parkway to Clay/Leslie County Elk Hill Industrial Park Access Road-</b> Approximately \$3.3 million in federal funds remain allocated for safety improvements already completed along the Hal Rogers Parkway. The request would re-allocate these federal transportation funds to be utilized for the construction of an access road to the Clay/Leslie County Elk Hill Industrial Park. This 1000 acre industrial park has all necessary infrastructure in place, but cannot experience commercial or industrial growth without the completion of an access road.</p>	N/A
Letcher County Fiscal Court	156 Main Street, Suite 107, Whitesburg, KY 41858	<p><b>Knott-Letcher County Water Connector Project-</b> this project would establish a connector between the Knott County and Letcher County water systems, providing the Letcher County Water &amp; Sewer District a much-needed additional source of treated water to serve its customers and providing first-time water service to approximately 60 households that currently rely on groundwater as their primary source of potable water. Without this source, future waterline extensions in Letcher County are in jeopardy.</p>	\$1,375,000
LKLP Community Action Council, Inc.	398 Roy Campbell Drive, Hazard, KY 41701	<p><b>Transit Facility in West Liberty, Ky. --</b> the proposed transit facility would serve as an economic catalyst and hub for downtown revitalization. This transit structure would enhance the basic downtown infrastructure to support commuters and businesses.</p>	\$1,700,000

<p>LKLP Community Action Council, Inc.</p>	<p>398 Roy Campbell Drive, Hazard, KY 41701</p>	<p><b>Transit Facility in Hindman, Kentucky (Knott County)</b> -- Initial funding will be used to conduct environmental, geological and archeological feasibility studies and acquire land for a transit facility in Hindman. The proposed transit facility would serve as an economic catalyst and hub for downtown revitalization. A parking and transit structure would enhance the basic downtown infrastructure to support commuters and businesses.</p>	<p>\$500,000</p>
<p>Manchester Memorial Hospital</p>	<p>210 Marie Langdon Drive, Manchester, KY 40962</p>	<p><b>Manchester Memorial Hospital:</b> Provide funding for the purchase of equipment for a new nurse call system at the hospital. The current equipment has exceeded its life expectancy and it is not possible to expand the system's equipment to include the new areas in which the hospital provides care. A new nurse call system would improve response time to patient needs and patient safety and provide better communication to the nurse delivery care. Manchester Memorial Hospital is a 63-bed, not-for-profit facility that serves more than 4,000 residents in rural Kentucky.</p>	<p>\$450,000</p>
<p>McCreary County Heritage Foundation</p>	<p>PO Box 452, 100 Henderson Street, Stearns, KY 42647</p>	<p><b>Repairs to the historic Big South Fork Scenic Railway and related transportation components-</b> The McCreary County Heritage Foundation owns and operates the historic Big South Fork Scenic Railway (BSFSR), located in Stearns, Ky. Today, the railway takes visitors into the Big South Fork National River &amp; Recreation Area. Passenger service with steam locomotives on the Kentucky &amp; Tennessee Railway ended in 1951, but completing repairs to the track, Yamacraw bridge and related transportation components will revive a historic mode of transportation in southern Kentucky, anchoring the interpretative programs in the Stearns Historic District and Blue Heron Coal Mining Camp.</p>	<p>\$750,000</p>
<p>Middlesboro Bell County Airport Board</p>	<p>2116 Cumberland Ave., Middlesboro, KY 40965</p>	<p><b>Safety Improvements-</b> This project will support needed safety improvements at the Middlesboro/Bell County Airport. Funding will provide an additional 100 feet for Runway 28 and 160 feet for Runway 10 -- greatly improving safety for operations. In addition, this funding will support much-needed rehabilitation of the terminal apron and drainage improvements along the taxiways.</p>	<p>\$1,323,000</p>

<p>Morehead State University</p>	<p>150 University Blvd., Morehead, KY 40351</p>	<p><b>Geodetic Infrastructure &amp; Research Project (KY):</b> NOAA's National Geodetic Survey (NGS) is responsible for the development and maintenance of a national geodetic data system that is used for navigation, communication systems, mapping and charting. The Kentucky Geodetic Infrastructure and Research project, conducted by Morehead State University and the University of Kentucky, provides the ability to develop accurate surface models through remote sensing technologies and facilitates site selection searches for industrial manufacturing and assembly facilities. FY10 funding will support Phase II development of a statewide GPS base station network.</p>	<p>\$500,000</p>
<p>Morehead State University</p>	<p>150 University Blvd., 901 Ginger Hall, Morehead, KY 40351</p>	<p><b>Technology Center for Space Applications at the MSU Space Science Center-</b> Morehead State University is in the midst of constructing a new 45,000 square-foot, state-of-the-art MSU Space Science Center support facility, which will establish a small business and high technology business incubator to promote further research and development activities. MSU is one of only 5 universities that offers a B.S. in Space Science, with a history of applied R&amp;D in space systems and microelectromechanical systems (MEMS) devices for space applications. Funding in FY10 will provide the infrastructure for faculty and students to fabricate satellite buses and associated microelectronics, and will greatly enhance the research capabilities at MSU.</p>	<p>\$4,500,000</p>
<p>Morehead State University</p>	<p>150 University Blvd., 901 Ginger Hall, Morehead, KY 40351</p>	<p><b>East Kentucky Bioenergy Capacity Assessment Project-</b> many opportunities exist through the exploration of alternative fuel sources to allow the United States to become less energy dependent on fossil fuels, and this project would support a feasibility study to analyze the availability of bioenergy sources in southern and eastern Kentucky.</p>	<p>\$250,000</p>
<p>Morehead State University</p>	<p>150 University Blvd. Morehead, KY 40351</p>	<p><b>Advanced Power Technologies for Nano-Satellites:</b> The funding will be used for the development of advanced power technologies applicable to nano-satellites, which will help meet tactical warfighter requirements. The program will look at increasing the power available from solar cells through innovative mechanical structures that increase surface area. This effort is in direct support of the Army's mission in developing nano-satellites to meet tactical warfighter requirements.</p>	<p>\$5,000,000</p>

<p>Morehead State University</p>	<p>150 University Blvd. Morehead, KY 40351</p>	<p><b>Morehead State University Health Initiative:</b> Provide funding to conduct a health outreach demonstration program in eastern Kentucky. The region has some of the highest rates of diabetes, obesity, and heart disease in the country. This is a targeted and comprehensive project to improve rural health and rural communities. The funds will be used for program development, supplies, health information resources, physician and professional support, and promotional/awareness efforts.</p>	<p>\$250,000</p>
<p>National Alliance for Model State Drug Laws (NAMSDL)</p>	<p>1414 Prince Street Alexandria, VA 22314</p>	<p><b>NAMSDL:</b> Provide funding to assist states with their efforts to address diversion of, abuse of, misuse of, and addiction to prescription drugs. The National Alliance for Model State Drug Laws (NAMSDL) is non-profit organization that serves as a resource for governors, state legislators, drug and alcohol professionals, community leaders, and others striving for comprehensive and effective state drug and alcohol laws, policies and programs. NAMSDL's national network of drug and alcohol experts researches and analyzes model drug and alcohol laws, and facilitates working relationships among state and community leaders and drug and alcohol professionals. The proliferation of addictive pain-relief prescription drugs in Kentucky and across the country necessitates continued funding of NAMSDL programs.</p>	<p>\$1,250,000</p>
<p>National Crime Prevention Council</p>	<p>1000 Connecticut Avenue NW, 13th Floor, Washington, DC 20036</p>	<p><b>National Crime Prevention Council:</b> funding will be used for continuation of NCPC's Neighborhood Watch, teen intervention and anti-crime initiatives. The National Crime Prevention Council's mission is to help people keep themselves, their families, and their communities safe from crime. To achieve this, NCPC produces tools that communities can use to learn crime prevention strategies, engage community members, and coordinate with local agencies.</p>	<p>\$40,000,000</p>
<p>National Incident Management System – Support Center</p>	<p>Eastern Kentucky University College of Justice &amp; Safety 245 Stratton Bldg., Richmond, KY 40475</p>	<p><b>National Incident Management System – Support Center (NIMS-SC).</b> Established by the Department of Homeland Security to support the National Integration Center (NIC) under FEMA, NIMS-SC provides important training, exercise evaluation and testing, and information technology system analysis. The requested funding will be used for the continuation and expansion of NIMS-SC to provide simulated and virtual emergency operations support, analysis, and exercise development programs.</p>	<p>\$9,000,000</p>

National Institute for Hometown Security	610 Valley Oak Drive, Ste 1 Somerset, KY 42503	<p><b>National Institute for Hometown Security</b> - The funding will be used to continue to provide leadership in discovering and developing community-based critical infrastructure protection solutions; facilitate the commercialization of these solutions; and encourage the deployment of these solutions. The Institute has already made significant contributions in improving biometrics, interoperability and food and transportation system security and safety.</p>	\$15,000,000
National Institute for Occupational Safety and Health (NIOSH)	395 E Street, S.W. Suite 9200 Washington, DC 20201	<p><b>Mine Technology and Safety Test Bed Language:</b> The Mine Technology and Safety Test Bed will utilize leading NIOSH approved technologies that enhance mine safety at a functional mine to analyze real world situations. The demonstration will assist in implementation of the MINER Act mandated technologies and tracking solutions.</p>	\$5,000,000
Operation UNITE	2252 South Highway 27, Somerset, KY 42501	<p><b>Operation UNITE General Operations:</b> Operation UNITE is a comprehensive, three-tiered approach to fighting drugs in southeast Kentucky. UNITE combines effective law enforcement and interdiction, education and deterrence with proven treatment options and remedies. These targeted funds will continue an aggressive and successful approach in fighting the drug war in Kentucky. These funds also will initiate a public-awareness campaign to rally communities to take back neighborhoods, as well as expand to neighboring counties overrun by drugs.</p>	\$10,000,000
Operation UNITE	2252 South Highway 27, Somerset, KY 42501	<p><b>Operation UNITE Youth Initiatives:</b> Operation UNITE is a comprehensive, three-tiered approach to fighting drugs in southeast Kentucky, with many programs aimed at youth through in-school and community activities. This includes leadership/adventure camps for at-risk middle school students, regional summer basketball camps and the national Hooked on Fishing-Not on Drugs® youth mentoring program. UNITE also employs substance abuse counselors in all school systems for prevention, early intervention and referrals, in addition to sponsoring anti-drug UNITE clubs focusing on peer mentoring and service. During the 2007-2008 school year, 6,891 students participated in 122 UNITE clubs and since 2004, UNITE counselors have conducted 64,595 sessions with youth in schools. Funding in FY10 will be used to continue these important initiatives in a region of the country where 23 of 29 counties are considered economically depressed and where only 59% of the population has a high school diploma.</p>	\$500,000

<p>Operation UNITE</p>	<p>2252 South Highway 27, Somerset, KY 42501</p>	<p><b>Operation UNITE Drug Task Force Methamphetamine Enforcement &amp; Cleanup:</b> Since 2004, Operation UNITE has encountered an dismantled over 105 Methamphetamine labs, as well as prosecuted over 100 individuals for the illegal production of meth. In addition, Operation UNITE was chosen as a pilot project to determine the effectiveness of "MethCheck," a program to monitor the sale of pseudoephedrine and disrupt its availability for illegal purposes. Funding would provide resources and equipment for further investigation and clean up of illegal meth labs, including training and education for local law enforcement, lab personnel, and medical/social personnel.</p>	<p>\$1,250,000</p>
<p>Operation UNITE</p>	<p>2252 South Highway 27 Somerset, KY 42501</p>	<p><b>Operation UNITE Voucher Program:</b> Provide funding for a substance abuse treatment and voucher program through Operation UNITE. Operation UNITE is a comprehensive program to combat the scourge of drug abuse in southern and eastern Kentucky by coordinating federal, state and local efforts in law enforcement, treatment and education. Operation UNITE has arrested 2,939 drug dealers and removed over \$8.4 million worth of drugs off the street, including 83,426 prescription pills, 450 pounds of marijuana, 14 pounds of meth and 20 pounds of cocaine. Over 1,890 non-violent offenders have participated in UNITE-funded drug courts, and more than 1,360 individuals grappling with addiction have received vouchers for treatment. This funding will be utilized to provide a one-time payment for residential substance abuse treatment for eligible individuals who can not afford treatment.</p>	<p>\$1,000,000</p>
<p>Operation UNITE</p>	<p>2252 South Highway 27 Somerset, KY 42501</p>	<p><b>Operation UNITE Substance Abuse Counselors:</b> Provide funding for a multi-school substance abuse counseling and curriculum development program through Operation UNITE. Operation UNITE is a comprehensive program to combat the scourge of drug abuse in southern and eastern Kentucky by coordinating federal, state and local efforts in law enforcement, treatment and education. From the 2004-2008 school years, 35 counselors served 44 school districts in the region. In addition, nearly 65,000 individual and group counseling sessions were provided, and 3,949 referrals to treatment were made. This funding will provide prevention, intervention, and treatment through drug counselors in the local school system.</p>	<p>\$1,000,000</p>
<p>Outdoor Venture Corporation</p>	<p>2280 South Highway 1651 Somerset, KY 42647</p>	<p><b>Modular Command Post Tent:</b> The funding will be used to address U.S. Army modular command post tent needs. The versatile tent can be packed, relocated, and reconstructed by two men in 20 minutes. When configured as Tactical Operations Centers, the tents provide on-the-move command and control in a fast-paced tactical environment.</p>	<p>\$8,000,000</p>

<p>Outdoor Venture Corporation</p>	<p>2280 South Highway 1651 Somerset, KY 42647</p>	<p><b>Air-Supported Temper Tent:</b> The funding will be used to address U.S. Army air-supported temper tent needs. The air-supported TEMPER tent's air beam construction dramatically reduces parts count and complexity compared to its counterpart aluminum-framed version. Air beam construction makes these shelters unexcelled for rapid deployment and strike. The state-of-the-art outer shell is designed to operate in all weather conditions, including high winds and heavy snow loads.</p> <p style="text-align: right;"><b>\$8,000,000</b></p>
<p>Parents Anonymous</p>	<p>675 West Foothill Blvd., Suite 220, Claremont, CA 91711</p>	<p><b>Parents Anonymous</b> is among the country's premier programs for the prevention of child abuse and neglect. At a time when communities across the country are reporting increases in the instances and severity of child abuse and neglect, Parents Anonymous's at-risk families program will be extremely helpful in strengthening and expanding nationwide services to families in local communities. A Parents Anonymous branch operating in London, Ky. has received numerous awards for its leadership in Southern and Eastern Kentucky.</p> <p style="text-align: right;"><b>\$2,500,000</b></p>
<p>Perry County Sanitation District No. 1</p>	<p>PO Box 1615, Hazard, KY 41702</p>	<p><b>Wastewater treatment plant-</b> the Perry County Sanitation District plans to develop a wastewater treatment plant in the Chavies area of Perry County, which will serve 502 households. The project will include 10-12 miles of sewerline and an extended aeration facility to discharge into the north fork of the Kentucky River. This facility will greatly enhance the water quality in this area, making the Appalachian area a more desirable place to live and work, as well as create numerous construction and maintenance jobs</p> <p style="text-align: right;"><b>\$2,112,000</b></p>
<p>Phoenix Products, Inc.</p>	<p>106 Bethford Road McKee, KY 40447</p>	<p><b>UH-60 Leak Proof Drip Pans (Army):</b> The funding will be used to retrofit U.S. Army UH-60 transmission drip pans. The drip pans provide three benefits: 1) It can be installed with no modification to the aircraft. 2) Once installed, it provides quick and easy access to the transmission well. 3) By eliminating hydraulic fluid/water wash leaks, it protects medevac patients and passengers and controls corrosion caused by leaking fluids.</p> <p style="text-align: right;"><b>\$8,000,000</b></p>
<p>Phoenix Products, Inc.</p>	<p>106 Bethford Road McKee, KY 40447</p>	<p><b>UH-60 Leak Proof Drip Pans (Army National Guard):</b> The funding will be used to retrofit U.S. Army National Guard UH-60 transmission drip pans. The drip pans provide three benefits: 1) It can be installed with no modification to the aircraft. 2) Once installed, it provides quick and easy access to the transmission well. 3) By eliminating hydraulic fluid/water wash leaks, it protects medevac patients and passengers and controls corrosion caused by leaking fluids.</p> <p style="text-align: right;"><b>\$8,000,000</b></p>

<p>Progeny Systems Corporation</p>	<p>155 Valley Oak Drive Suite B Somerset, KY 42503</p>	<p><b>Submarine System Biometrics Access Control:</b> The funding will be used for the development of a biometrics-based submarine access control system to automate and simplify secure system access. Properly configured biometrics systems, engineered into tactical system workstations and ship infrastructure, offer the ability for systems to reliably recognize users without user intervention, resulting in rapid and secure system access.</p> <p><b>County Courthouse Security Improvements:</b> The Pulaski County Courthouse has experienced several break-ins and incidents of vandalism in recent months, and this funding would be used enhance security at the courthouse. This will provide much-needed protection for county and state employers.</p>	<p>\$6,000,000</p>
<p>Pulaski County Fiscal Court</p>	<p>PO Box 712, Somerset, KY 42502</p>	<p><b>Downtown Revitalization (Somerset, Ky.)</b> - this funding would support streetscape improvements, trail and walkway enhancements, sight lighting and power, and landscaping near the town square in downtown Somerset. These enhancements would increase pedestrian safety and make the area handicapped accessible, bringing the area into compliance with ADA.</p>	<p>\$1,000,000</p>
<p>Pulaski County Fiscal Court</p>	<p>PO Box 712, Somerset, KY 42502</p>	<p><b>Rural Domestic Preparedness Consortium</b> - The Consortium provides valuable training, pre-approved by FEMA, to rural first responders throughout the nation. The training and curriculum is consistent with the National Preparedness Goal raising our nationwide level of preparedness to natural disaster or terrorist attack. Eastern Kentucky University manages these resources on behalf of itself and its partner institutions; East Tennessee State University, Johnson City, Tennessee; Iowa Central Community College, Ft. Dodge, Iowa; NorthWest Arkansas Community College, Bentonville, Arkansas; University of Findlay, Findlay, Ohio; and North Carolina Central University, Durham, North Carolina. Funding will continue important training tailored for emergency responders in rural communities.</p>	<p>\$12,000,000</p>
<p>Rural Domestic Preparedness Consortium</p>	<p>Eastern Kentucky University (EKU), 50 Stratton Bldg. 521 Lancaster Blvd., Richmond, Kentucky 40475</p>	<p><b>Rural Law Enforcement Technology Training Center:</b> The Rural Law Enforcement Technology Training Center is an essential crime-fighting tool, addressing the severe technology and training needs of our rural State and local law enforcement officers nation-wide. The Somerset center is an integral part of the National Law Enforcement and Corrections Technology Center (NLECTC) system.</p>	<p>\$3,000,000</p>
<p>Rural Law Enforcement Technology &amp; Training Center</p>	<p>2252 South Highway 27, Somerset, KY 42501</p>		

Save the Children	126 Main Street Berea, KY 40403	<p><b>Save the Children Rural Literacy Program:</b> Provide funding for the continuation of an after school literacy program in eastern Kentucky. Save the Children currently operates an effective after school rural literacy program in over 30 schools in eastern Kentucky by providing supplemental educational services to improve children's reading skills. This funding will be used for curriculum and assessment materials, computers, and ongoing training and assistance needs.</p>	\$500,000
SEKTDA	2252 South Highway 27 Somerset, KY 42501	<p><b>SEKTDA:</b> Provide funding for economic and small business development in southern and eastern Kentucky. SEKTDA is a non-profit, region-wide initiative created to attract travelers and tour industry businesses to the area. SEKTDA's 47 county region is in one of the most depressed areas in the United States and economic and small business development is essential. These funds will contribute to the economic growth of the region.</p>	\$1,000,000
Southeast Kentucky Economic Development Corporation (SKED)	2252 South Highway 27 Somerset, KY 42501	<p><b>SKED:</b> Provide funding for business recruitment and marketing, small business technical assistance, low-interest loans, and community development services. SKED is a non-profit community organization tasked with creating jobs, promoting a hardworking, family-oriented workforce, courting business innovators, and generating commerce in a 42-county area in rural Appalachia.</p>	\$500,000
St. Claire Regional Medical Center	222 Medical Circle Morehead, KY 40351	<p><b>St. Claire Regional Medical Center Primary Care Clinic:</b> Provide funding to purchase equipment for the new freestanding St. Claire Regional Medical Center Primary Care Clinic and comprehensive health education center. The new facility will provide healthcare professionals with expanded and new educational and training opportunities. In addition, it will improve access to quality care and create hundreds of new jobs in the rural region.</p>	\$475,000
The American Association of Motor Vehicle Administrators	4301 Wilson Blvd., Suite 400, Arlington, VA 22220	<p><b>National Motor Vehicle Title Information System (NMVTIS):</b> These funds will develop an anti-auto theft system by connecting all state titling agencies, enabling the sharing of title information prior to re-issuing a new title.</p>	\$3,200,000

<p>The Center for Rural Development</p>	<p>2252 South Highway 27 Somerset, KY 42501</p>	<p><b>The Center for Rural Development:</b> Provide funding for a program that provides skills and entrepreneurial training to promote the recruitment and creation of companies that rely on workers with technology-based skills. The Center for Rural Development is a non-profit organization whose primary mission is improving the quality of life for individuals in its forty-two county service region by providing, promoting, and supporting innovative and sustainable community development solutions. The Center for Rural Development serves rural Kentucky through a variety of development programs including planning, education, public safety, cultural events and telecommunications technology, and by providing user-friendly meeting/convention space.</p> <p style="text-align: right;">\$500,000</p>
<p>Tier 3 Data and Web Services</p>	<p>1708 Forest Lane Suite 105 Corbin, KY 40701</p>	<p><b>Integrated Defense Technical Information:</b> The funding will be used to provide the Defense Logistics Agency (DLA) an interface to the Army's Product Lifecycle Management (PLM) system. This system will reduce manufacturing and repair potential costs and bridge the communications gap by exchanging product technical data between engineering and re-procurement.</p> <p style="text-align: right;">\$5,000,000</p>
<p>U.S. Army Corps of Engineers, Huntington District</p>	<p>502 Eighth Street, Huntington, WV 25701</p>	<p><b>Section 202, Flood Damage Prevention, Levisa &amp; Tug Forks of Big Sandy &amp; Upper Cumberland Rivers-</b> As authorized in Section 202 of P.L. 96-367, as amended, this request would provide directed funding for the U.S. Army Corps of Engineers to continue structural and non-structural flood damage reduction efforts in several flood-prone communities in southern and eastern Kentucky. These important flood damage reduction projects mitigate hundreds of millions of dollars in potential damages. Without Section 202 projects, taxpayers in Appalachian Kentucky would be burdened by an additional \$847 million in flood insurance.</p> <p style="text-align: right;">\$39,900,000</p>
<p>U.S. Army Corps of Engineers, Huntington District</p>	<p>502 Eighth Street, Huntington, WV 25701</p>	<p><b>Section 531, Southern and Eastern Kentucky-</b> this project would fund the continuation of an innovative environmental habitat and water infrastructure program in southern and eastern Kentucky. The Environmental Protection Agency estimates this region has over \$300 million in unmet infrastructure needs. The U.S. Army Corps of Engineers therefore works closely with regional non-profits to determine priority water quality projects. Over 50 innovative regional projects for sewer and water improvements are currently underway or have been completed. Through this program, the U.S. Army Corps of Engineers has helped serve 20,861 homes with sewer improvement projects. FY10 funding for Section 531 projects will continue these important efforts.</p> <p style="text-align: right;">\$5,000,000</p>

U.S. Army Corps of Engineers, Louisville District	PO Box 59, Louisville, KY 40201	<p><b>Buckhorn Lake Re-evaluation Study</b>– this study would determine whether flood control operations at the lake can be modified via a winter pool elevation increase without adverse affects on downstream flood prevention efforts.</p>	\$350,000
U.S. Army Corps of Engineers, Nashville District	160 White Bridge Pike, Nashville, TN 37209	<p><b>Operations &amp; Maintenance, Lake Cumberland</b>- this project would provide the U.S. Army Corps of Engineers additional funds to perform needed improvements to degraded Lake Cumberland structures and facilities. These operation and maintenance funds may be used for needed refurbishments around the lake.</p>	\$2,000,000
U.S. Army Corps of Engineers, Nashville District	160 White Bridge Pike, Nashville, TN 37209	<p><b>Wolf Creek Dam Construction</b>- for continued design, preparation and construction to stabilize Wolf Creek Dam, which impounds Lake Cumberland. The lake mitigates possible flooding to several Kentucky and Tennessee communities, and it is estimated that Wolf Creek Dam has prevented more than \$1.3 billion in damages and prevented major loss of life from flood events. The dam also supports a \$150 million tourism industry in the region. A \$341 million contract for the construction of a 4200-foot concrete barrier wall to eliminate seepage at Wolf Creek Dam was let in July 2008. The project is among the Corps' top dam safety projects in the nation.</p>	\$123,000,000
U.S. Department of Justice - Office of Justice Programs - Prescription Drug Monitoring Program	810 Seventh Street NW, Washington, DC 20531	<p><b>Prescription Drug Monitoring Program, U.S. Department of Justice</b> -- This program important grant program, operated by the U.S. Department of Justice, provides critical assistance for states to establish and operate prescription drug monitoring programs. These programs are an important component in our efforts to curb the illegal diversion of otherwise legal narcotics. Thirty-two states have operational systems to monitor the prescription and sale of drugs identified as controlled substances.</p>	\$10,000,000
U.S. Department of Labor Mine Safety and Health Administration (MSHA)	1100 Wilson Boulevard 21st Floor Arlington, VA 22209	<p><b>Joseph A. Holmes Language:</b> The 90-year old, non-profit Joseph A. Holmes Safety Association (JAHSAs), promotes health and safety in the mining industry consisting of key representatives from federal and state governments, industry, mining organizations, and labor. The Association conducts regional safety meetings, safety campaigns, training, and encourages safety prioritization and improvements by providing scholarships and awards. In 2006, Mine Safety and Health Administration (MSHA) determined the need for specified legislative authority to continue to serve as a key partner in JAHSAs. The language provision simply allows MSHA to actively participate in JAHSAs activities including, but not limited to mine safety training, awareness campaigns and best-practices forums.</p>	\$0

<p>Union College</p>	<p>310 College Street Barbourville, KY 40906</p>	<p><b>Union College:</b> Provide funding for renovations and reconstruction of an existing building for a new nursing and allied health program facility. Union College plans to renovate the former Knox County Hospital building to create a center for academic programs in nursing, science, and allied health. The new facility and programs will improve the educational opportunities for the students and the underserved region.</p> <p><b>Marty Driesler Lung Cancer Project:</b> The funding will be used for a lethal cancers early detection and awareness program for the Department of Defense Health Program. This program can provide the Department of Defense with health information to identify high risk factors and exposures to cancer in military environments, and provide a model for early cancer detection and screening.</p>	<p>\$500,000</p>
<p>University of Kentucky Research Foundation</p>	<p>Room 1 Kinkead Hall Lexington, KY 40506</p>	<p><b>Progressive Research Initiative for Sustainable Manufacturing (PRISM):</b> The funding will be used to accelerate the adoption of sustainable manufacturing for small and medium enterprises in the U.S. Department of Defense supply base. Current Research and Development efforts in sustainable manufacturing lack a cohesive investment plan and coordination to achieve the needed impact that PRISM will provide. The PRISM program will serve as a pathway to find and utilize resources that can be of value to the defense manufacturing industrial base.</p>	<p>\$2,000,000</p>
<p>University of Kentucky, Center for Applied Energy Research</p>	<p>Room 1 Kinkead Hall Lexington, KY 40506</p> <p>2540 Research Park Drive, Lexington, KY 40511</p>	<p><b>Coal-to-Liquids Research-</b> Funding for this project will allow the University of Kentucky's Center for Applied Energy Research (CAER) to continue important research regarding the development of strategic coal-based liquid transportation fuels (diesel, aviation fuel, etc.). The use of coal for transportation fuels can provide additional independence from oil imports, safeguard the nation's security, allow for the development of new industries, and provide new incentives for coal mining. The Department of Defense has a keen interest in securing alternatives to petroleum for reliable supplies of battlefield fuels. Moreover, there are certain applications where coal-derived fuels are environmentally superior for the production of ultra-clean diesel and jet fuel of interest to the aviation, heavy equipment and trucking industries. Eastern and western Kentucky coals are suitable feed stocks for these purposes.</p>	<p>\$5,500,000</p> <p>\$2,000,000</p>

<p>University of the Cumberland</p>	<p>6191 College Station Drive, Williamsburg, KY 40769</p>	<p><b>Science &amp; Technology Complex-</b> The University of the Cumberland currently has 394 students majoring or minoring in mathematics, physics, biology, chemistry, pre-med, pre-pharmacy, pre-dentistry, pre-optometry, pre-physical therapy and pre-veterinary medicine. The Science and Technology facility will provide students with technological training in the medical field, providing increased access to healthcare expertise in an area of southern and eastern Kentucky critically underserved by the medical community. The funding will be used to renovate an existing facility in order to accommodate increased demands, as well as assist with the construction and equipment of a new building.</p>	<p>\$2,000,000</p>
<p>University of the Cumberland</p>	<p>6191 College Station Drive, Williamsburg, KY 40769</p>	<p><b>Health &amp; Wellness Facility</b> - This funding would help construct and equip a Health and Wellness Center on campus at the University of the Cumberland for use by the surrounding community. The center will provide educational and service opportunities for health, wellness, exercise and related activities. According to the Appalachian Regional Commission, 108 Appalachian counties had health professional shortages in 2000 -- and the University's service area lies in the heart of this shortage area: in Eastern Kentucky, 20 counties are fully devoid of wellness facilities, and 15 counties are partially unserved. This facility will provide increased access to healthcare expertise in an area of southern and eastern Kentucky critically underserved by the medical community.</p>	<p>\$2,000,000</p>
<p>Whitley County Fiscal Court</p>	<p>PO Box 237, Williamsburg, KY 40769</p>	<p><b>Historic Post Office Renovation-</b> this project would renovate and revitalize a former U.S. Post Office to found the Whitley County Historical Society Museum. The Museum aspires to foster an awareness of Whitley County's history, and to promote local and regional tourism in the area.</p>	<p>\$750,000</p>
<p>Williamsburg/Whitley County Airport</p>	<p>1000 Aviation Blvd., Williamsburg, KY 40769</p>	<p><b>Runway Safety Area Improvement</b> - This funding will allow the Airport Board to widen the runway safety areas (RSAs), ensuring more safe and secure landing and take-off operations. The standard dimensions for the RSA are 500 feet in width and 1000 feet beyond each runway end. The safety areas at the Williamsburg-Whitley County Airport do not meet those standards at this time.</p>	<p>\$350,000</p>
